

Test performance 2023

The reliability of the Listening and Reading sub-tests is reported using Cronbach Alpha, and the reliability of the Writing and Speaking sub-tests is reported using Spearman Reliability. The figures below show the average reliability values for the combined administrations of the OET test per sub-test in 2023. Also provided are conditional reliability figures at C+ and B, which are the score points at which decisions are typically made.

Skill	Overall Reliability	Conditional Reliability	
		Grade C+	Grade B
Listening	0.80	0.835	0.825
Reading	0.81	0.854	0.843
Writing	0.79	0.781	0.777
Speaking	0.79	0.798	0.799
