Test performance 2024

The reliability of the Listening and Reading sub-tests is reported using Cronbach Alpha, and the reliability of the Writing and Speaking sub-tests is reported using Spearman Reliability. The figures below show the average reliability values for the combined administrations of the OET test per sub-test in 2024. Also provided are conditional reliability figures at C+ and B, which are the score points at which decisions are typically made.

Skill	Overall Reliability	Conditional Reliability	
		Grade C+	Grade B
Listening	0.79	0.833	0.823
Reading	0.8	0.848	0.836
Writing	0.79	0.844	0.833
Speaking	0.8	0.845	0.84
