Welcome to OET@Home,

The OET test that you can take safely and securely in the comfort of your own home.

We have put together this guide to help you prepare for test day so you’ll be less nervous when the time comes. The more you know what to expect, the more comfortable you’ll feel about taking OET@Home!

Where to sit OET@Home

You can choose where to sit OET@Home. Most importantly, it should be a quiet place where there are no other people or distractions. Set up a comfortable workplace, including a desk/ table and chair.

Additional requirements:

Your testing location must be indoors (walled) and well lit.

Nobody else must be in the room or enter the room throughout the test. If this happens, the invigilator/Proctor will end your test and you will not receive your test results.

Your desk or table must be free of mugs, books, mobile phones and so on. Similarly, there should be no notes or anything else that could help you in the test on the walls or in the area around you.

We have put together some pictures that show you clearly how your workspace should and shouldn’t look while you sit OET@Home. You’ll find them on pages 13-15 of this guide.

What to have with you

Valid ID. You must have your original, valid (unexpired) and acceptable ID for OET with you on test day.

Acceptable IDs

Your computer along with a webcam, stable internet connection and all system requirements. See system requirements on page 4.

A clear plastic bottle of water, with no label and no lid. Any labels and the lid must be removed beforehand.

What NOT to bring

A bag of any type, including a pencil case

Mobile phone

Watch

Camera or any other electronic device

Pens or pencils

Dictionaries

Paper/notepad (you’ll be able to highlight in approved areas of the test)

Correction fluid/ tape
# System requirements

Your system must meet the following requirements. Use this checklist for Windows or Mac to help you set up your device. Make sure you go through each one according to your operating system so your setup meets the specified requirements.

**Important:** If you have any VPNs or Virtual Machines running on your computer, please disable them.

<table>
<thead>
<tr>
<th>Setup</th>
<th>Windows</th>
<th>Mac</th>
</tr>

<tbody>
<tr>
<td><strong>Accepted Devices</strong></td>
<td>Use a laptop or desktop PC with webcam (tablets, company-issued devices or dual monitors are NOT allowed). NOTE: Microsoft Surface or similar can only be used when configured in laptop mode and your browser zoom must be set at 100%.</td>
<td>Use a laptop or desktop PC with webcam (tablets, company-issued devices or dual monitors are NOT allowed).</td>
</tr>
<tr>
<td><strong>Power source for your device</strong></td>
<td>Plug your device directly into a power source, unattached from a docking station.</td>
<td></td>
</tr>
<tr>
<td><strong>Web Camera</strong></td>
<td>You must have a webcam. If you have a desktop computer, the web camera must be able to be moved so you can show the Proctor the area around you. Your webcam can be a wired or built into your device. Bluetooth is not allowed.</td>
<td></td>
</tr>
<tr>
<td><strong>Headset or Headphones</strong></td>
<td>A wired (i.e., plug in) headset/earphones. Bluetooth is NOT allowed.</td>
<td></td>
</tr>
<tr>
<td><strong>Correct screen resolution &amp; Scaling</strong></td>
<td>Make sure your screen resolution is set to 1920 x 1080 and your screen scaling is set to 100%. Follow these instructions if you need help.</td>
<td>2014 and newer computers should all exceed the recommended resolution. Please ensure scaling is set to the default setting.</td>
</tr>
<tr>
<td><strong>Compatible Operating System</strong></td>
<td>Windows 8.1 or higher.</td>
<td>MacOS 10.13 or higher (except for 13.0 through to 13.2.1)</td>
</tr>
<tr>
<td><strong>Web Browser</strong></td>
<td>Google Chrome.</td>
<td></td>
</tr>
<tr>
<td><strong>Internet Connection</strong></td>
<td>We recommend connecting an Ethernet/LAN cable directly to the router. Please ensure the cable is long enough to allow you to conduct the 360 degree environment check.</td>
<td></td>
</tr>
<tr>
<td><strong>Internet Connection Speed</strong></td>
<td>5.0 Mbps or greater download speed. 1.0 Mbps or greater upload speed.</td>
<td></td>
</tr>
</tbody>
</table>

**Useful tips to help you run the test:**

1. We recommend you run a speed test before test day.
2. Please disconnect other connected devices. For a strong internet connection, you can use an Ethernet connected directly to the router.
3. If you are using WiFi, please position your device where you can receive the strongest signal.
4. If you have previously installed the ProProctor Application, please uninstall and reinstall it again.
About each sub-test

The order your sub-tests come in depends on your individual test timetable. The Listening, Reading and Writing sub-tests will always be delivered together in this order in one test sitting via Prometric’s Pro-Proctor system, while the Speaking test will be delivered separately via Zoom.

Watch OET’s Rebecca take you on a walk-through of the OET on Computer experience.

Your Listening, Reading and Writing sub-test sitting will begin with a 10-minute tutorial. Pay attention to this carefully as it will help you to familiarise yourself with the test system.

**TAKING THE READING SUB-TEST**

60 minutes

The Reading Sub-test consists of three parts and has a total of 42 question items. The time is split into 15 minutes for Part A and 45 minutes for Parts B and C. You need to scroll down to view the full texts in the PDF Viewer for Reading Parts A and C. For Part A, remember to keep your answers short — just a word or short phrase. If your response is too long, you won’t be able to view it all on the computer. How to improve your performance in the Reading Sub-test.

**TAKING THE WRITING SUB-TEST**

45 minutes

The Writing Sub-test takes 45 minutes and is specific to your profession. You will need to scroll down to view the full text of the case notes in the PDF viewer.

Remember, you will have 5 minutes of reading time to familiarise yourself with the case notes before writing your response. How to improve your performance in the Writing Sub-test.

**TAKING THE LISTENING SUB-TEST**

40 minutes

The Listening Sub-test is divided into 5 sections (each task is one section) and a total of 42 question items based on general healthcare topics.

You will have time at the end of each section to review your answers.

Remember to keep your answers for short — just a word or short phrase. If your response is too long, you will not be able to see it all on the computer. How to improve your performance in the Listening Sub-test.

Will I get any break in the test?

You will be given one scheduled 10-minute break after Reading Part A. If you want to leave the room during the break, you will need to notify the proctor and leave your camera on. If you fail to notify the proctor or turn your camera off, your test will be forfeited. You will also have to undergo a full security check within the 10-minute break when you return. If you need to take an unscheduled break, please advise the proctor and leave your camera on. You will need to undergo a security check when you return.

Please note: If it is time for your scheduled break, make sure the proctor has acknowledged your request before you take the break.

Make sure you check your timetable in the confirmation email:

1. The local time for Listening, Reading and Writing via ProProctor
2. The time for Speaking via Zoom. This may change between booking and test day so please be sure to check your email inbox regularly.
Checks before test day

System check and ProProctor installation on Windows

Follow this guide for Mac OS Users

a) System Check
Before installing the ProProctor application that OET@Home runs on, you need to do a system readiness check to confirm whether your computer can install and run the ProProctor application. The link to the system check is here: rpcandidate.prometric.com/Home/

b) Download & Install the ProProctor Application
Once your computer has been validated, you are ready to download and install the ProProctor application that delivers the OET test. Please do so 24 hours before test day.

Important: If you have previously installed the ProProctor Application, please uninstall and reinstall it again.

c) Conduct a System Readiness Check in the ProProctor Application

1. Open the ProProctor application.
2. Enter your confirmation number and the letters found in your booking confirmation email.
3. Click CHECK MY SYSTEM to complete the System Readiness Check. Here you will be able to:
   — Try out the PDF zoom function
   — Uncover any technical issues before test day
On test day: Launching your test

On the day of your test, please make sure you are ready to launch your test and start the checking-in process 15-30 minutes before your scheduled test time. When you are sitting comfortably at your prepared desk/table, go to the Prometric ProProctor site at rpcandidate.prometric.com/Home/LaunchExam

1. Launch your test

Prior to launching your test, please ensure your setup meets the requirements. This includes:

— Limiting anyone in your household from using the internet, i.e. ask a family member to not use Netflix.

— Checking your screen resolution is set to 1920 x 1080 and scaling is at 100% (for Windows).

To launch your test (at least 15-30 minutes before the start time):

1. Open your booking confirmation email. This is the email you received when you first booked the test.

2. Enter your confirmation number.

3. Enter the four letters displayed in your booking confirmation email.

Test Day Support:

Proctor Chat:
If you are experiencing any issues during your test, contact the Proctor via the LIVE PROCTOR chat feature.

For technical support with Proproctor, please visit: ehelp.prometric.com/proproctor/s/

Prometric Phone: +1-800-853-6764

Technical Support:

1. Notify the Proctor via the LIVE PROCTOR chat about any technical issues you are experiencing. Wait for instructions.

2. If your technical issue cannot be fixed with the Proctor, please contact Prometric Technical Support:

Website: ehelp.prometric.com/proproctor/s/ Phone: +1-800-226-7958

Note: This means you will need to end your test to contact technical support.
Checking in

1. Image Capture
Simply position your face using the guides on the screen and click the CAPTURE button. Make sure you check that the image clearly shows your face and is not blurry.

Click PROCEED.

2. ID Capture
Position your ID (the same document you used when booking OET), using the guides on the screen and click the CAPTURE button. Make sure you check that all text is readable. Then click PROCEED.

3. Checklist
Read the on-screen checklist to be sure you have everything required to take your test. When you are ready, click PROCEED to alert the Prometric Readiness Agent who will appear on-screen in a few moments.
Meeting your Prometric Readiness Agent

Your Prometric Readiness Agent will guide you through three security checks before starting your test. Please note that you may need to wait several minutes until a Readiness Agent is ready to assist.

1. Candidate Detail Confirmation

Your Readiness Agent will confirm with you your name, ID details, address and test details via live video chat.

2. 360° Environment Check

Your Readiness Agent will ask you to show them a 360° view of your environment, your computer screen and keyboard as well as your work surface, using your webcam. They may request that you remove items, move items or make other changes to ensure that the environment meets our requirements.

IMPORTANT: Do not have your laptop connected to a docking station during the set up of your exam. This can cause connectivity issues. Make sure to clear your workspace and put away all personal items.

3. Candidate Person Check

Your Readiness Agent will ask you to stand up to do a scan of your person. This will include (but is not limited to) the following:

— You will need to raise your pants legs above your ankles.
— Empty and turn all pockets inside-out.
— Raise shirt sleeves above your wrists.
— If you are wearing eyeglasses, you will be asked to take them off for visual inspection to ensure they don’t contain a recording device.
— You are not allowed to wear any large jewellery during the test.
— If you have long hair that covers your ears, you will be asked to pull your hair back to ensure nothing is attached to your ear, such as a Bluetooth earpiece.

If you are bringing a clear/ transparent bottle of water to the test, you will need to show this to the Readiness Agent.

TIP: Take off any jewellery and empty out your pockets before launching the test.
Taking the test

Now you are ready to take the Listening, Reading and Writing sub-tests of OET@Home! The OET Speaking Sub-test will take place separately via Zoom.

Although you will not see your Proctor during the Listening, Reading and Writing sub-tests, he/she will monitor you throughout the test and will be available to help you if any issues arise at any point during the test. Simply use the LIVE PROCTOR feature on the right of your screen to either speak to your Proctor or send a message asking for help.

If you experience a technical issue and it cannot be fixed with the Proctor, please contact Prometric Technical Support: ehelp.prometric.com/proproctor/s/

Note: This means you will need to end your test to contact technical support.

If the Internet drops out

If your Internet connection drops out during the test, your answers from the previous sections will have been saved i.e. you will not lose this work. However, once your connection comes back, you will need to go through the security check again and you will have to restart the test section that you were on when the Internet dropped out. **Please note the time allowed for the sub-test you are working on will not pause if your internet connection drops out. Additionally, if your connection drops out more than three times, your test will be terminated.**

If your Internet drops out for 20 minutes or longer, your test will end; you will not be allowed to continue taking the test.

Note: If you disconnect more than three times, you will not be able to resume your test.

ProProctor Zoom Function

You may need to Zoom in or out using the ProProctor Zoom function at the top of the window.
On test day

Remember to bring your valid and acceptable ID. Acceptable IDs: support.oet.com/s/article/What-ID-can-I-use-to-book-and-sit-OET.

When you are sitting comfortably at your prepared desk/table, click on the link you have been emailed to access your Speaking test.

1. Security check

Before you begin your Speaking test, the interlocutor will check your ID and take you through the same security checks as for the Listening, Reading and Writing sub-tests.

2. Taking the Speaking Test

The OET Speaking Sub-test is delivered individually, takes about 20 minutes and consists of two role plays. Each profession will have specifically designed materials that draw on real healthcare scenarios.

The Interlocutor will begin by asking a few questions to help you relax, but don’t worry, these are not assessed.

How to improve your performance in the Speaking Sub-test.

Digital literacy

Digital literacy means having the skills you need to live, learn and work in a society where communication and access to information is largely through online platforms. When overseas-trained healthcare professionals start work in English-speaking environments such as in the UK, Australia and the US, they are often surprised at how much they need to use a computer as part of their daily work.

One computer skill that will help you both in your future work and with OET@Home is the ability to type well. If you can’t type at least as fast as you can write by hand, you may be better off taking OET on paper. On the other hand, if you can type faster than you can write by hand, you’ll be at a big advantage in some parts of OET, such as in the Writing Sub-test. So why not start working on your typing skills now?

Here are some free online resources that will help you to improve your typing skills and general digital literacy.

Typing.com — teaches keyboarding (typing), computer basics and online safety

Speed Typing Online — teaches typing and is particularly good for beginner typers. There are also typing games for practice.

TypingClub — hundreds of typing lessons plus lessons that focus on speed.

Microsoft Digital Literacy Course — a comprehensive courses broken down into separate learning

Here is a video so you know what to expect of the OET Speaking Test Online.

Test environment – **Dos**

1. Clear, orderly and well-lit room/workspace

2. Sit in an upright position

3. Alone for the entire test

4. Computer must be on a table/ desk
Test environment – Don’ts

1. Sitting/reclining on a bed or couch with computer on lap

2. Poorly lit room or workspace

3. Cluttered or crowded room or workspace
Test environment – *Don’ts*

4. Person(s) or pet(s) present in room or area at any time

5. Using a dual-monitor configuration to take the test
Part 1: Installing ProProctor on MacOS

Please follow the instructions on the Prometric website to download and install ProProctor on Mac.

Part 2: Check and Change Screen Resolution on your Mac

It’s important that your screen resolution is set to 1920 x 1080 and zoom scaling as the default setting. You can find instructions on how to do this on the Apple Support page.

Download and install ProProctor from Prometric website

The Occupational English Test (OET) is designed to meet the specific English language needs of the healthcare sector. It assesses the language proficiency of healthcare professionals who wish to register and practise in an English-speaking environment.

OET is owned by Cambridge Boxhill Language Assessment Unit Trust (CBLA), a venture between Cambridge English (Aus) and Box Hill Institute. Cambridge Assessment English is a not-for-profit department of the University of Cambridge with over 100 years of experience in assessing the English language. Box Hill Institute is a leading Australian vocational and higher education provider, active both in Australia and overseas.
