Interlocutor name: _____

Interlocutor signature: _____

ROLEPLAYER CARD NO. 4

RADIOGRAPHY

SETTING

Public Hospital - Radiography Department

PATIENT

You are 35 years old and have been suffering from stomach cramps and bloody stools. You are now waiting for the results of an abdominal X-ray that was carried out on you over one hour ago. You are feeling anxious and have requested to speak to the radiographer.

TASK

- When asked, say you're really anxious about getting the X-ray results and having to wait around for them for so long is making it worse.
- When asked, say you'd like to have an idea of what the X-ray will show.
- Say you have a bad feeling; you think that there might be a really serious problem.
- Say you'll speak to your doctor at the follow-up appointment, but you hope you don't have to wait too much longer for the X-ray. You've already been waiting a long time.
- Say you'll wait in the waiting room.

CANDIDATE CARD NO. 4

RADIOGRAPHY

SETTING

Public Hospital - Radiography Department

RADIOGRAPHER

One hour ago you performed an abdominal X-ray on a 35-year-old patient who has been experiencing stomach cramps and bloody stools. The patient is waiting for the results and has requested to see you.

TASK

- Find out reason for patient's request to see you.
- Apologise for long wait (e.g., many patients needing X-rays, urgent cases, understaffed, etc.). Advise patient on timescale for X-ray (e.g., not much longer, etc.). Find out any other concerns.
- Resist request to comment on possible results of X-ray (e.g., your role: taking X-ray, checking image quality, processing images, no analysis; unable to give information on results; etc.).
- Explain purpose of X-ray (e.g., identify cause of pain/bleeding, provide appropriate treatment, etc.). Advise patient to discuss any concerns with doctor (e.g., for more detail/specific information, etc.).
- Resist giving timescale for wait for results (e.g., to be ready soon, etc.). Advise patient return to waiting room (e.g., until name called, etc.).
