**CANDIDATE NUMBER**

**CANDIDATE DECLARATION**

By signing this, you agree not to disclose or use in any way (other than to take the test) or assist any other person to disclose or use any OET test or sub-test content. If you cheat or assist in any cheating, use any unfair practice, break any of the rules or regulations, or ignore any advice or information, you may be disqualified and your results may not be issued at the sole discretion of CBLA. CBLA also reserves its right to take further disciplinary action against you and to pursue any other remedies permitted by law. If a candidate is suspected of and investigated for malpractice, their personal details and details of the investigation may be passed to a third party where required.

**CANDIDATE SIGNATURE:**

## INSTRUCTION TO CANDIDATES

Please confirm with the Interlocutor that your roleplay card number and colour match the Interlocutor card before you begin.

---

**Interlocutor to complete only**

ID No: _____ Passport: ☐ National ID: ☐ Alternative ID approved: ☐

**Speaking sub-test:**

ID document sighted? ☐ Photo match? ☐ Signature match? ☐ Did not attend? ☐

Interlocutor name: _____

Interlocutor signature: _____

## ROLEPLAYER CARD NO. 5        NURSING

| | |
|---|---|
| SETTING | Clinic |
| **PATIENT** | You are 51 years old and were overexposed to the sun in your teens. You have just had a lesion removed from your hand following a diagnosis of squamous cell carcinoma. The nurse has come to remove the stitches. |
| TASK | • When asked, say the doctor told you that you had something called squamous cell carcinoma, which you think is just another name for skin cancer; you're a little worried. |
| | • Say you have a better understanding of what squamous cell carcinoma is now. Ask if you're likely to need more surgery to remove other lesions in the future. |
| | • When asked, say you always wear a high factor sunscreen, 30 or higher. You wear a hat when you're out in the sun, but you think it's too late because the damage has already been done; you spent too much time in the sun in your teenage years. |
| | • Say you'll make sure to look after your skin from now on. When asked, say your wound has been fine; there's no pain or discharge but you still think it's too early to have the stitches out. |
| | • Say you're ready to have the stitches removed. |

SAMPLE TEST

## CANDIDATE CARD NO. 5        NURSING

| | |
|---|---|
| SETTING | Clinic |
| **NURSE** | Your patient is 51 years old and has had a lesion removed from his/her hand following a diagnosis of squamous cell carcinoma. He/she was overexposed to the sun in his/her teens. You have come to remove the stitches. |
| TASK | • Confirm reason for visit (removal of stitches, wound cleaning/redressing, etc.). Find out if patient has any concerns. |
| | • Give information about squamous cell carcinoma (type of skin cancer: caused by sun exposure/ultra violet radiation, etc.). Reassure patient about effectiveness of surgery (e.g., lesion removed, cancer unlikely to spread, etc.). Stress importance of patient skin monitoring (e.g., checking for new/changing spots, regular doctor check-ups, etc.). |
| | • Resist request for information about further surgery (e.g., patient to speak with doctor, etc.). Find out about patient's habits when in sun (sunscreen, hats, etc.). |
| | • Stress need for ongoing prevention (e.g., continuing to cover up when in sun: prevention of further damage, etc.). Find out about patient's wound post-surgery (any pain, discharge, etc.). |
| | • Emphasise reasons for removal of stitches now (e.g., wound healing, assessed by doctor, typically removed after 7–14 days, etc.). Advise on aftercare (e.g., keeping wound: clean, covered, dry, etc.). Establish patient's consent to have stitches removed. |
